सभी याचिकाकर्ताओं को उपयुक्त ग्रेडों में ज्येष्ठता दे दी गई है।

(ख) और (ग) श्री हरी यादव दिसम्बर, 1987 से चार्जमैन के ग्रेड में पदोन्नति की मांग कर रहे हैं। श्री हरी यादव और अन्य याचिकाकर्ताओं की पदोन्नति के आदेश सितम्बर, 1989 में जारी किए गए थे। न्यायालय के आदेश के अनुसार पुनः दी गई ज्येष्ठता के आधार पर उनके स्थान पर उनसे कनिष्ठ किसी कर्मचारी को नियुक्त नहीं किया गया है।

(घ) कार्य-निष्पादन की आवश्यकताओं के आधार पर पदोन्नति होने पर श्री हरी यादव को कई अन्य कर्मचारियों के साथ स्थानान्तरित कर दिया गया था। न्यायालय के आदेश का पूरी तरह से पालन किया गया है।

(ङ) श्री हरी यादव (और अन्य पात्र याचिकाकर्ताओं का भी) का वेतन उपयुक्त रूप से पुनः निर्धारित कर दिया गया है। श्री हरी यादव सहित किसी भी याचिकाकर्ता के विरुद्ध बदले की भावना से कोई कार्रवाई नहीं की गई है।

Sabotage operations in India by Inter-Services-Intelligence of Pakistan

2325. SHRI S. VIDUTHALAI VIRUMBI: Will the PRIME MINISTER be pleased to state:

(a) whether Government are aware of the reports that the Inter-Services Intelligence of Pakistan has contracted for two and a half million electronic and seismic detonators for possible use in sabotage operations in India; and

(b) if so, whether Government have taken counter measures to meet any such eventuality?

THE MINISTER OF STATE IN THE MINISTRY OF DEFENCE (DR. RAJA RAMANNA): (a) Government have seen reports that Pakistan is going in for acquisition of large quantities of plain electronic and seismic detonators.

(b) Government keep a close watch on all developments having a bearing on national security and take timely and appropriate measures, to meet any eventuality.

Contributors of green house effect

2326. SHRI SHAMIM HASHMI: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether it is a fact that three of the five largest contributors of green house gases are non industrialised countries as reported in 'the Sunday Mail' dated the 1st July, 1990; and

(b) whether deforestation and rice growing also contribute significantly to the green house effect; if so, whether there are any plans to overcome the situation?

THE MINISTER OF ENVIRONMENT AND FORESTS (SHRI NILAMANI ROUTRAY): (a) The scientific basis regarding calculation of contributions to green house gas emissions by different countries is not solidly established in the report of the World Resources Institute cited in 'the Sunday Mail' of 1st July, 1990. Two of the three developing countries cited in the report as amongst the five largest contributors of green house gas emissions viz. India and China do not figure in the list of 50 countries given in the same report with the highest per capita green house gas emissions while the third developing country, Brazil, figures only as the Seventh country in the world in this aspect.

(b) Scientific studies have established that the green house effect is caused within the atmosphere by certain gases such as carbon dioxide, methane, nitrous oxide and chlorofluorocarbons. Deforestation and certain agricultural practices are generally considered to contribute to the emissions of these gases. Any solution to the problem will depend on national actions, global agreements and technology advances in the relevant spheres.
